

Annex 2

Requirements for participation in the Second Edition of the Specialized Academic Network for Technical Cooperation of the IACHR

This call for proposals is open to all Universities and Academic Centers in the Americas region that are duly accredited and recognized by the corresponding authorities in their countries. Academic Institutions that participated in the first call for proposals may do so again, provided that they submit a new application.

Individual applications will not be accepted; all applicants must apply on behalf of a university or academic Center, whose highest authority must sign an agreement with the IACHR, a model of which is included in the call for applications. Acceptance by the Institution will be expressed in the statement declaration of acceptance of the model agreement of the Academic Network, which is included in the call for proposals as Annex 3.

The requirements mentioned below must be completed in the registration form of the call for proposals. All mandatory fields must be completed.

- Present the university or academic center, describing its track record and experience on the topic.
- Justify the interest in participating in the Network.
- Designate of a person responsible for the team. Upload their resume and those of the team that will work on the project.
- Establish a specific title for the project.
- Choose a specific topic from those previously defined by the IACHR and explain the institution's specialization in that topic.
- Establish the general and specific objectives of the project.
- Describe the work methodology to be used.
